

Style 612 Non-Asbestos w/PTFE Coating

Application:

612 is a non-asbestos PTFE coated Packing which is applicable to a wide range of applications. It is used in the sealing pumps, valves, reaction kettles flanges, in the chemical, general industrial, agricultural, co-generation, power generation, and other areas..

PTFE should not be used in dissolvable molten alkali metal and unbounded fluorine ions.

Features:

PTFE Pump Packing Style 612 is constructed with Acrylic filament impregnated with PTFE lubricant. It can be die formed into pre-densified rings. Recommended use in rotating pumps and agitator for chemical resistance application.

Temperature	+500F
Pressure	500 PSI
PH Value	0-12
